

Mini Bearing Metric Kit 120 Piece

MR52 ZZ X 10	MR106 ZZ X 10
MR63 ZZ X 10	MR115 ZZ X 10
MR84 ZZ X 10	MR126 ZZ X 10
MR85 ZZ X 10	MR128 ZZ X 10
MR104 ZZ X 10	MR148 ZZ X 10
MR105 ZZ X 10	MR688 ZZ X 10

Mini bearing metric kit 120 piece. Ideal for compact, high-performance designs, miniature ball bearings operate at high speeds with low friction and minimal service requirements.

Robust and capable of handling light to moderate radial and thrust loads, these quiet-running bearings are supplied in a wide range of types and designs.

The metric series miniature bearings are single row ball bearings available from 1 mm to 10-mm bore sizes. The construction of these bearings enable them to carry moderate radial and thrust loads at low operating torque and provide high performance. The metric series ball bearings are available in stainless steel and chrome steel and come in open sealed and shielded configurations.
